

Sales category analysis

DEMO · fixture-backed workflow

Findings from data / observations

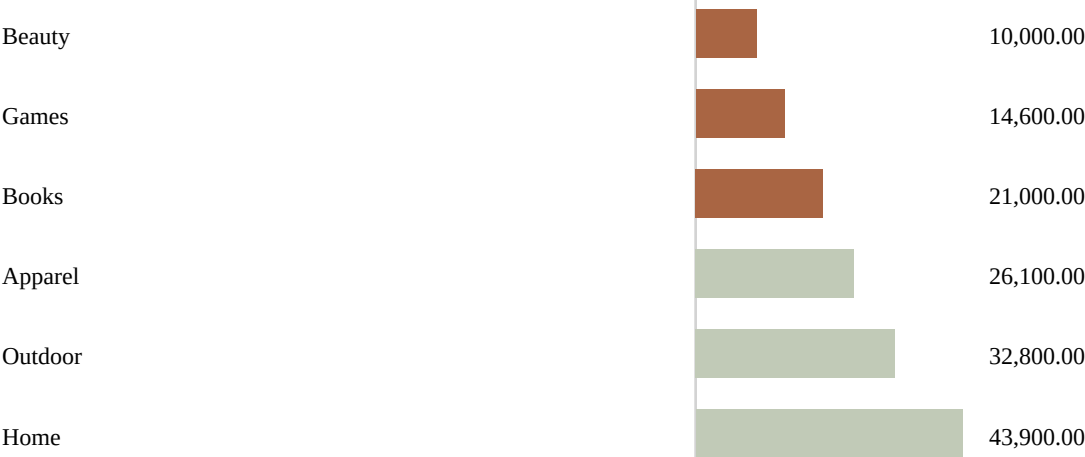

sales.csv: Weakest categories by sum of revenue: Beauty (10,000.00), Games (14,600.00), Books (21,000.00)

Hypotheses and suggested experiments

Experiment ideas, not established causes: test category positioning and compare conversion against a control; evaluate sample size and margins before changing spend.

Category performance

Ascending sum of revenue by category; ties alphabetical. Negative values retained. Not profit or growth.

Category	Total
Beauty	10,000.00
Games	14,600.00
Books	21,000.00
